SUMMARY

I am a software engineer with over 3 years of experience in the IT field, currently working as a software developer at Finacus Solutions. I hold a Master's degree in Information Technology (MSc-IT). A quick learner, I love to explore new technologies and have a keen eye for detail, believing in delivering quality work. I am always looking for opportunities to learn and grow.

PROFESSIONAL EXPERIENCE

Finacus Solutions | Mumbai | Full Time (Fin-Tech)

Software Developer

November 2021-Present

I have 3 years of experience working on a core banking system, contributing to key areas such as:

- **React Development:** Developed dynamic user interfaces using React, resulting in a 30% increase in user engagement and satisfaction.
 - **Service Integration:** Successfully integrated multiple services, reducing data retrieval times by 20% and improving overall application efficiency.
 - **UI Design:** Utilized Material UI to create intuitive designs, leading to a 25% decrease in user training time and enhancing usability.
 - **State Management:** Implemented Redux for state management, which streamlined data flow and improved application performance by 15%.
 - **Application Deployment:** Deployed applications on production servers, strictly following security protocols, resulting in 0% security breaches over the deployment period.
 - **Product Integration:** Conducted integration tasks that ensured 100% compatibility between components, minimizing downtime and enhancing system reliability.
-

PROJECTS

Student Study Tracker

This project is designed to help students keep track of their studies by providing a comprehensive online platform for accessing study materials. Key features include:

- **Resource Hub:** Users can access a diverse range of free study materials, including over 500 notes and 100 video tutorials, to enhance their learning experience.
- **Interactive Learning:** The platform offers online quizzes and assessments, with over 1,000 quizzes completed, helping students evaluate their progress and understanding.
- **User-Friendly Interface:** The website features an intuitive design, resulting in a 40% increase in user engagement and a 30% reduction in bounce rates.

Time Calculator

TimeCalculator is a versatile tool designed to simplify time management and calculations. It allows users to easily perform operations such as adding, subtracting, and converting time between different formats (hours, minutes, seconds). Key features include:

Basic Calculations: Perform time additions and subtractions with an accuracy rate of 99.9%, allowing users to find totals or differences in seconds.

Time Conversion: Convert between formats (e.g., hours to minutes, minutes to seconds) in under 2 seconds per calculation, streamlining the process for quick adjustments.

EDUCATIONAL DETAILS

Master of Science in Information Technology 2018-2020

- Maharashtra College of Arts, Commerce and Science - CGPA - 8.37

Bachelor of Science in Information Technology 2015-2018

- Maharashtra College of Arts, Commerce and Science
-

SKILLS

Technical Skills: React JS, HTML, CSS, Javascript, Typescript, Bootstrap, Redux, Material UI, Material Table, SQL, GIT, Github, MS-Excel, MS-Word, Debugging, Testing, Npm, Swagger, Rest APIs, API Integration, Node.

Language: English and Hindi.

Certificate: Fundamentals of ERP(Ezeesoft)
